T400 RESIDENTIAL TREADMILL

IMPACTING YOUR LIFE
Whether Running Outside on a Hard Surface or Indoors on a Treadmill, You can Generate Forces of Approximately 3X your Bodyweight. Our Fully Integrated Impact+Shock Control Technology (i+SC) Uses a Combination of 8 Variable Elastomer Shock Absorbers Combined with Our Constant Speed Control (CSC) Technology to Give you Superior Energy Absorbing Impact Protection with Every Step.

A FOLDING SOLUTION
The T400 is the Perfect Treadmill Solution for Someone with a Small Space. When Finished with Your Workout, Simply Lift the Deck Until it Automatically Locks in Place. When Ready to Go, Simply Push the Release with Your Foot and Watch Our Soft Drop Technology Lower it to the Floor.

COMPACT PERFORMANCE
The T400 Residential Treadmill was Designed and Engineered for the Serious Home User that Needs the Option of a Folding Treadmill for a Small Space. Although Smaller than It’s Bigger Brothers, the T400 is Built to the Same High Quality Standards and Will Provide You with Years of Enjoyable and Comfortable Use.

BODYCRAFT LCD DISPLAY
Our Interactive Monitor Continuously Displays Your Feedback During Your Work Out Keeping You Focused on what Matters! Double Down with Our Optional Polar® Compatible Heart Rate Belt to Track your Pulse and Keep Yourself in Your Chosen Target Heart Rate Zone. Additional Features Include a USB Port to keep Your Phone Charged, Audio Jack, Front Speakers, and 3 Speed Cooling Fan for those Intense Training Sessions.
